Sebastian Ernst

Sebastian Ernst, MSc (ernst@agh.edu.pl, www) holds the position of a research assistant in the Computer Science Laboratory, Department of Automatics, AGH UST. He has been taking part in GEIST research since 2006.

He graduated in 2005 with a Msc degree in Computer Science and started his PhD studies the same year. He is currently finishing his PhD thesis on Robust Granular Planning (knowledge engineering/AI). Results of the research have been presented at numerous international and national conferences and journals, including FLAIRS, Systems Science, AAIA, CEE-SET, IWSE and KAM (for the current list, see BPP AGH).

He has taken part in Polish and EU research projects, including HeKatE, INDECT and Calibrate. His other research and teaching interests include web technologies, databases, geographic information systems (GIS), mobile technologies and collaborative user preference profiling.

Sebastian's hobbies include photography, automobiles, skiing, sailing and listening to music.
